

OUR MISSION

“To make a mark in our chosen area, by being ever abreast of new possibilities and tapping the market opportunities.

To anticipate the needs of our customers and end users translating their requirements into meaningful products.

To create, innovate and produce excellence through a philosophy of uncompromising dedication at every level of function.

To make the best use of resources and technology in our pursuit for continuous improvement in our product portfolio.

To nurture a lasting relationship with our distributors - our partners in growth, through empathic understanding and mutual respect.”

ABOUT US

One of free India's earliest, most critical revolutions took place in 1952 in the field of healthcare.

At a time when most patients were vulnerable and many succumbed to infections caused by re-usable medical devices, Romsons stepped forward with a pioneering breakthrough – the concept of disposable medical and surgical devices.

Today, over half a century later, the culture of disposable medical devices is well established and Romsons has entrenched itself as the prominent brand in the business – a pioneer and a leader.

An INR 5.0 billion, professionally-managed enterprise.

A global player with presence in 60 countries. A retail footprint across geographies – with 1000 plus distributors in India and abroad. Most significantly, the name Romsons continues to inspire trust for unsurpassed quality, innovation and safety of its products.

ROMSONS GROUP OF COMPANIES :

- Romsons Scientific and Surgical Industries Pvt Ltd.
- Romsons International-100% Export Oriented Unit
- Romsons Juniors India
- Romsons Medicons
- Raj Vijay Corporation (Unit I & II)
- RGI Meditech Pvt. Ltd.

A PRODUCT FOR EVERY NEED? WELL ALMOST..

We have the largest product portfolio in the industry (100 products in over 400 sizes), which caters to almost the

entire spectrum of a patient's need. Each product has been designed and manufactured to deliver maximum performance and safety. We have earned recognition in the form of award from The Chamber of Commerce in India for outstanding export performance and the special recognition instituted by Ministry of MSME, Government of India, our pioneering work has been universally appreciated.

WINNING THE TRUST OF THE BEST :

Our experience (over 60 years) in understanding patients' needs and doctors' requirements has earned us the loyalty of the most demanding customers in the world.

Our ability to serve the emerging needs of our customers with speed and agility makes us the preferred choice in the competitive market place. Little surprise then, that Romsons products are being exported to developed and emerging markets in over 60 countries.

We also regularly participate in all the major international medical trade fairs like Medica (Germany), Hospitalar (Brazil), Arab Health (UAE), FIME (USA) amongst others.

RESEARCH AND DEVELOPMENT :

A relentless quest : Our mission is to create products that promote healing, well-being and safety of patients. So, we are continuously improving existing products and researching new solutions in the light of changing customer needs and market dynamics.

Our research and production teams work in tandem to realize the above objective.

GOOD MANUFACTURING PRACTICES :

Our manufacturing plant conforms to GMP, a WHO proprietary benchmark. The discipline of this standard is evident in the physical ambience of our plant, the air and water quality, manufacturing technology, packaging and the sterilization process.

Ambience : Special micro and HEPA filters in all air handling units ensure minimal contamination in the manufacturing areas. Micro-organism and particle concentration levels are carefully monitored by the micro-biological labs to keep these levels within safe limits. Employees undergo periodic medical checkup to maintain high standards of health and hygiene.

All clean rooms are provided with a three step changing room and air showers at the room entrance to ensure a complete dust-free environment.

MANUFACTURING PLANT :

We have taken great care to source up-to-the-minute, frontline technology. As a result we are able to process moulding and extrusion with precision and within close tolerance.

PACKAGING AND STERILIZATION :

Our products are packed on most modern packaging machines suitable for working in clean room conditions, to ensure minimal risk of contamination or damage during transportation. The superior assembly and packaging machines help in maintaining the consistency in product quality at multiple levels.

We use Ethylene Oxide to sterilize the products, as per ISO 11135 standard.

The entire process is automated and computerized.

Each batch is well documented for the sterilization cycle and released for dispatch after written approval of a senior Quality Assurance official.

TOWARDS ZERO DEFECT QUALITY :

Our goal is to manufacture zero-defect products. We have meticulously planned and built a series of multiple online and manual quality control measures into each stage of raw material procurement, manufacturing and packing cycle. Our Quality Control standards conform to ISO 9001:2008, ISO 13485:2003 and the European Medical Device Directive 93/ 42/ EEC certifications.

Our establishment is also registered with USFDA. As a result, we have been authorized to label our products with the prestigious CE mark.

EMPOWERING PEOPLE TO EXCEL :

We provide a professionally nurturant work environment that empowers employees to be self motivated, think out of the box, value excellence and bond with each other to perform as a team.

All across our corporation, our teams function with flexibility, speed and decisiveness in the most challenging environment. We give tremendous freedom and opportunities to all our employees for superior work quality in competitive and ever changing and evolving business environment.

urology care

Also known as genito-urinary surgery. It is a specialised branch of medicine that focuses on the surgical and medical diagnosis or treatment of diseases pertaining to male and female urinary tract and reproductive systems. Products in this category range from intermittent to indwelling urinary catheters, external male catheters and specialized urine drainage bags and urine meters.

NEL CATH[®] NELATON CATHETER

Nel Cath[®] GS-1004

- Designed for short term bladder catheterization through urethra.
- Frozen surface tubing for super smooth intubation.
- Atraumatic, soft rounded and closed tip catheter facilitates drainage.
- Coned distal end ensures an optimal sliding quality and care for the sensitive tissue to achieve atraumatic catheterization.
- Two lateral eyes for efficient drainage.
- Radio-opaque line provided throughout the length of the catheter for proper X-ray visualization.
- Universal funnel shape connector for easy connection to urine bag.
- Colour-coded funnel connector of the catheter provides instant identification of the sizes.
- Sterile, individually packed in peelable, soft blister pack.
- Box of 100/ Master Box of 1200.

SPECIFICATIONS

Size	Length

FOLEY TRAC[®] FOLEY'S BALLOON CATHETER

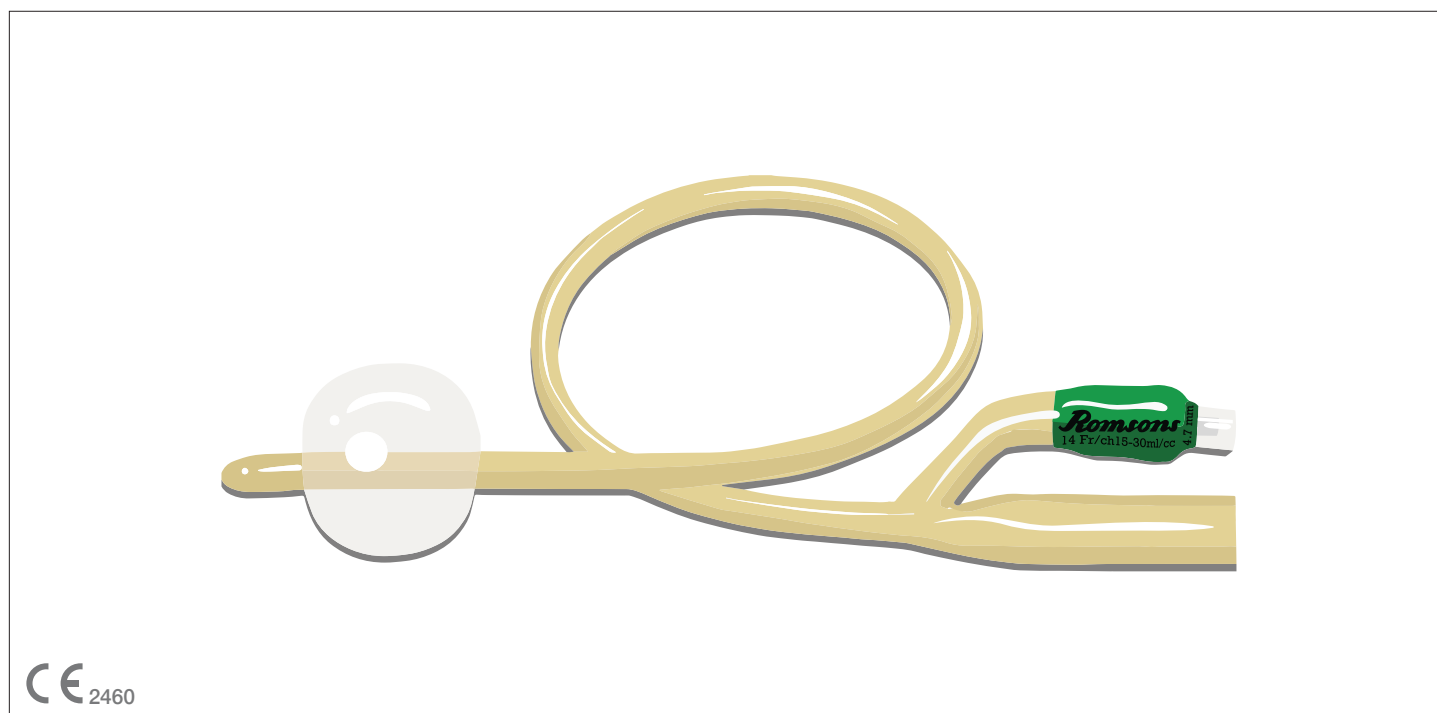

Foley Trac[®] GS-1026

- Silicone elastomer bonded catheter.
- Coned, soft closed tip facilitates ease penetration.
- Large, distally located drainage eyelets enable efficient, trouble-free drainage.
- Syringe luer operated non-return valve facilitates hassle free inflation and deflation of balloon.
- Symmetrical large capacity balloon ensuring good sphincter action, preventing any bladder leakage.
- Colour coded for instant size identification.
- Sterile, individually packed in peelable soft blister pack.
- Box of 50/ Master Box of 600.

SPECIFICATIONS

Size	Balloon Capacity

URO CATH FOLEY'S BALLOON CATHETER

Uro Cath® 2 Way GS-1072

- Foley catheter used for short or long term urine drainage.
- Made up of latex bonded with silicone elastomer which eliminates the risk of encrustation.
- Smooth surface facilitates non-traumatic intubation.
- Distal end is coned and provided with super smooth, burr free eyes for atraumatic intubation.
- Provided with symmetrical large capacity balloon that ensures straight tip for proper urine flow and good sphincter action, preventing bladder leakage.
- Hard non-return valve ensures trouble free inflation and deflation of balloon.
- Valve is colour coded for instant size identification.
- Sterile, individually packed in peelable, soft blister pack.
- Box of 50/ Master Box of 600.

Uro Cath® Paed. 2 Way GS-1090

- Provided with stylet for easy intubation.
- Box of 10/ Master Box of 200.

Uro Cath® 3 Way GS-1094

- Provided with an additional irrigation lumen.
- Box of 10/ Master Box of 200.

SPECIFICATIONS

Size	Balloon Capacity
2 Way Adult	
12 FG	5-15 ml
14 FG	30 ml
16, 18, 20, 22, 24 FG	30-45 ml

6 FG	1.5-3 ml
8, 10 FG	5 ml
3 Way Adult	
16, 18, 20, 22, 24 FG	30-45 ml

SILKO CATH SILICONE FOLEY'S BALLOON CATHETER

Silko Cath® GS-1078

- 100% silicone material foley catheter.
- Inert silicone material reduces irritation for optimal patient comfort for long term use and enhanced safety.
- Remarkably smooth, non-stick surface of silicone catheter makes it highly resistant to encrustation.
- Smooth tapered tip of catheter facilitates easy introduction into the urethra.
- Clear material enables visualization of drained urine.
- Distal eyes are super smooth and proportional to provide atraumatic insertion and are accurately formed to permit effective drainage.
- Hard non return valve ensures easy inflation and deflation of balloon.
- Symmetrical balloon facilitates proper bladder retention.
- Colour coded valve for easy size identification.
- Sterile, individually packed in peelable, soft blister pack.
- Box of 10/ Master Box of 100.

SPECIFICATIONS

Size	Balloon Capacity
Adult	
12 FG	5-10 ml
14 FG	5-15 ml
16, 18, 20, 22, 24 FG	15-30 ml
Paediatric	
6 FG	1.5-3 ml
8, 10 FG	3-5 ml

MALE CATH EXTERNAL CATHETER

Male Cath[®] GS-1010

- Penile Sheath/ External Catheter.
- Male Cath is specially designed for urine incontinence for day and night use in male patients.
- Manufactured from 100% natural rubber latex for soft and gentle feel.
- Designed to be easy to apply, easy to wear, and easy to remove.
- Non-irritating latex is soft and comfortable, and can be crimped for a customised fit.
- Provided with soft adhesive strip for proper fixation to penis shaft.
- Skin-friendly adhesive helps to maximize wear time and also prevents accidental detachment.
- Gentle adhesive keeps the catheter in place yet allows for easy removal.
- Proximal end is designed for safe and easy connection to urine bag/ leg bag.
- Individually packed in peelable, soft blister pack.
- Sterile, ready for use.
- Box of 50/ Master Box of 1000.

SPECIFICATIONS

Size	I.D
Small	20 mm
Medium	25 mm
Large	30 mm
Extra Large	35 mm

SIL CATH SILICONE EXTERNAL CATHETER

Sil Cath[™] GS-1027

- 100% silicone male external catheter.
- Soft silicone catheter is designed to be non-irritating, non-reactive and for soft and gentle feel.
- Cup-shaped applicator makes it easy to wear.
- Ergonomically shaped and easily rolls over the penis.
- Highly safe and free from any kind of allergic reactions.
- Transparent material allows better skin health monitoring while the catheter is in place.
- Provided with soft adhesive strip for proper fixation to penis shaft.
- Skin-friendly adhesive helps to maximize wear time and also prevents accidental detachment.
- Gentle adhesive keeps the catheter in place yet allows for easy removal.
- Proximal end is designed for safe and easy connection to urine bag/ leg bag.
- Individually packed in peelable, soft blister pack.
- Sterile, ready for use.
- Box of 20/ Master Box of 400.

URO BAG URINE COLLECTING BAG

Uro Bag® (Romo 10®) DB-1070-10

- Urine collecting bag used for short or long term urine drainage.
- Two litre capacity bag provided with 100 cm long super smooth kink resistant tubing ensures unrestricted flow.
- Moulded handle facilitates easy handling of bag and holds the tube in upright position to prevent kinking.
- Efficient non-return valve with top outlet.
- Modified tapered connector facilitates aseptic catheter-urine bag connection.
- Box of 25/ Master Box of 200.

Uro Bag® (Romo 20™) DB-1070-20

- Flexible and kink resistant tube of 120 cm length provided with side clamp for urine aspiration.
- All other features are as that of Romo 10.

Uro Bag® (Romo 30™) DB-1070-30

- Thick walled kink resistant extra soft tube is easy to milk and ensures unrestricted flow.
- All other features are as that of Romo 10.

SPECIFICATIONS

Product Code	Tube Length
DB-1070-10	100 cm
DB-1070-20	120 cm
DB-1070-30	100 cm

URO FLOW SPECIALISED URINE COLLECTING BAG

Uro Flow™ DB-1053

- Specialised urine bag to prevent CAUTI with patented “Urovision chamber”.
- It breaks the urine column and prevents upward migration of micro organisms.
- It also has a diaphragm valve to eliminate urine backflow to prevent infection.
- Clear and transparent chamber facilitates visualization and monitoring of urine flow and detection of urine colour, presence of blood/ pus etc.
- The bag has a “closed urine drainage system” that separates the bag from the catheter, eliminating the risk of catheter associated UTIs.
- Universal connector has a mid-stream sampling port, which enables urine sampling without disconnecting urine bag, thus maintaining a closed system.
- Provided with a built-in patented foldable hanger which holds the urovision chamber in upright position and facilitates convenient bedside hanging.
- Specialised "T" type bottom outlet facilitates quick emptying of the urine bag.
- After closure, the "T" tap can be safely tucked into the allocated side pocket which prevents unnecessary contamination during handling.

SPECIFICATIONS

Capacity	Tube Length
2000 ml	100 cm

SPECIAL FEATURES

- ★ Urovision chamber
- ★ Closed system avoids CAUTI
- ★ Non-return valve
- ★ Mid-stream sampling port

UROMETER URINE BAG WITH MEASURED VOLUME CHAMBER

Urometer® DB-1068

- Graduated measured volume meter for accurate measurement of the urine output.
- Clear and transparent measured volume chamber allows precise reading.
- Urine meter is directly attached to a two litre capacity urine bag having overflow facility.
- Fully closed circuit drainage eliminates the risk of contamination.
- Soft and kink resistant PVC tubing.
- Universal tapered connector provided facilitates secure connection with the urethral catheter.
- Foldable hanger with tube holder for bed side hanging.
- Sterile, individually packed.
- Box of 5/ Master Box of 50.

SPECIFICATIONS

Size DB-1068	Tube Length
Adult	150 cm
Child	150 cm

UROMETER PLUS URINE BAG WITH MEASURED VOLUME CHAMBER

Urometer® Plus DB-1068 N

- Premium graduated measured volume meter for accurate measurement of the urine output specially designed for ICU patients.
- Specialized urine meter system with universal tapered connector having a needle free sampling port which facilitates un-contaminated mid-stream urine sampling.
- Soft and kink resistant PVC tubing.
- Clear and transparent measured volume chamber allows precise reading.
- Fully closed circuit drainage eliminates the risk of contamination.
- Urine meter is directly attached to a two litre capacity urine bag having overflow facility.
- Foldable hanger with tube holder for bed side hanging.
- Sterile, individually packed.

SPECIFICATIONS

Size DB-1068 N	Tube Length
Adult	150 cm
Child	150 cm

T.U.R SET TRANS URETHERAL RESECTION SET

T.U.R Set® GS-1008

- “Y” shaped set for endoscopic irrigation during TURP procedure (Trans Urethral Resection of Prostate gland).
- Provided with thumb operated clamps that help in quick and smooth changeover of bottles.
- Proximal end is equipped with flexible latex tubing for easy connection to the endoscope.
- Individually packed in peelable pouch pack.
- Sterile, ready for use.
- Box of 10/ Master Box of 100.

SPECIFICATIONS

Flow Rate	Total tube Length
Single : 800 ml	150 cm
Double : 1200 ml	150 cm

SUPRA CATH PLUS SUPRA PUBIC DRAINAGE CATHETER

Supra Cath® Plus GS-1006S

- Suprapubic drainage catheter.
- Designed for cystostomy and supra-pubic drainage.
- Manufactured from 100% silicone.
- Super smooth catheter material ensures atraumatic intubation.
- Low risk of encrustation helps maintain a high level of drainage performance even when the catheter is inserted for a longer duration.
- Symmetrical inflated balloon facilitates self-retention.
- Catheter provided with a radio-opaque line throughout its length for x-ray visualization.
- Distally located lateral eye enables efficient drainage.
- Sterile, individually packed in a box.
- Box of 1/ Master Box of 20.

SPECIFICATIONS

Size	Balloon Capacity
16 FG	25 ml
18 FG	25 ml
20 FG	25 ml
22 FG	25 ml

surgery care

Medical specialty that uses operative manual and instrumental techniques on a patient to investigate and/ or treat a pathological condition, to help improve bodily function or appearance or to repair unwanted/ruptured areas. During the post-operative period, the patient's general function is assessed, the procedural outcome is analysed and the surgical site is checked for signs of infection.

ROMO VAC SET CLOSED WOUND SUCTION SET

Romo Vac Set® GS-5002

- Close wound drainage device under negative pressure.
- Provided with the option to use one or two catheters post-operatively.
- Connecting tube is kink resistant and is provided with additional strength to withstand the suction.
- Multiperforated catheters provided with radio opaque line and satin smooth perforation/ eyes for trauma free performance.
- Available in different sizes with matching size curved needle to meet moderate to heavy drainage needs.
- Graduated bellow allows user to measure the drainage volume.
- Flexible bellow chamber is easy to be depressed by one person single handedly for activating the suction of bellow unit.
- Sterile, individually packed in peelable blister pack.
- Box of 1/ Master Box of 30.

UNIT CONSISTS OF :

- Bellow unit capacity 800 ml.
- Connecting tube with clamp and “Y” connector.
- Curved needle with matching catheter.
- Spare perforated catheter.

SPECIFICATIONS

Catheter Size	Bellow Capacity
10 FG	800 ml
12 FG	800 ml
14 FG	800 ml
16 FG	800 ml
18 FG	800 ml

MINI VAC SET MINI CLOSED WOUND SUCTION SET

Mini Vac Set® GS-5006

- Close wound drainage device under negative pressure.
- Suitable for minor surgery.
- Drain catheter has been provided with a radio-opaque line for better X-ray visualization.
- Catheter having Burr free smooth eyes at the distal end for efficient and trauma free performance.
- Easy to use by one person to depress the chamber and activate the negative suction of the bellow unit.
- Sterile, individually packed in a box.
- Box of 1/ Master Box of 50.

UNIT CONSISTS OF :

- Bellow unit capacity 50 ml.
- Curved needle with matching catheter.

SPECIFICATIONS

Catheter Size	Bellow Capacity
8 FG	50 ml

FLAT DRAIN SET JACKSON PRATT DRAINAGE SET

Flat Drain Set® GS-5047

- Jackson-Pratt drainage system.
- Latex free, manufactured from 100% silicone for superior bio-compatibility.
- Smooth, inert material greatly enhances the patient's comfort.
- Soft yet kink-resistant structure to minimize obstruction.

BELLOW UNIT :

- In-built non-return valve prevents reflex of fluid.
- Bellow provided with a convenient clip for secure hanging.

DRAIN :

- Enables easy placement and prevents accidental sliding out.
- Radio opaque flat drain facilitates accurate placement.
- 100% silicone flat drain with satin smooth perforations facilitate efficient drainage and has a 60cm connecting tube for attachment to the bellow unit.

SPECIAL FEATURES

- ★ Jackson-Pratt drain ★ 100% silicone material
- ★ Enhanced comfort ★ Atraumatic and gentle

SPECIFICATIONS

Size	Jar Capacity
3 x 7 mm	200 ml
4 x 10 mm	200 ml

ROMO ADK ABDOMINAL DRAINAGE KIT

Romo ADK® GS-5036

- Specially designed kit for post-operative abdominal drainage.
- Consists of super smooth drainage catheter alongwith a collection bag.
- Provided with specialised foldable handle which holds the tube upright, prevents accidental kinking during handling and suitable for bedside hanging.
- Soft and smooth catheter with large atraumatic eyes for efficient drainage.
- Radio-opaque line throughout catheter length help x-ray visualization.
- Catheter is colour coded for instant size identification.
- Sterile, individually packed in a peelable pouch.
- Box of 10/ Master Box of 100.

UNIT CONSISTS OF :

- Soft drainage catheter 50 cm long.
- Collection bag of 2000 ml capacity.

SPECIFICATIONS

Catheter Size	Bag Capacity
16 FG	2000 ml
20 FG	2000 ml
24 FG	2000 ml
28 FG	2000 ml
32 FG	2000 ml

VACCU SUCK SUCTION SET YANKAUR SUCTION

Vaccu Suck® Suction Set GS-5016S/C

- Moulded Yankaur suction handle with flexible kink resistant tube.
- Used for removal of secretions and blood peri-operatively by providing **unobstructed suction** during prolonged use.
- Soft flexible adaptors at both ends of the tube provide safe grip to the handle as well as suction source.
- Suitable for use with or without **vent control facility**.
- Vent port is closed with tight fit sleeve, which can be removed by small incision to shift to vent control system.
- Sterile, individually packed in a peelable ribbon pack.
- Available in two versions : **Handle with Standard Tip and Crown Tip**.
- Box of 10/ Master Box of 80.

SPECIFICATIONS	
Tube O.D	Tube Length
9 mm	250 cm

Sump Suction Set GS-5008

- Specially designed pool suction handle is a versatile three position instrument that quickly converts from gentle sump action to precision suction.

VENTE SUCK YANKAUR SUCTION WITH CONTROL BUTTON

Vente Suck® GS-5113

- Vente suck set is intended for peri-operative suction and removal of secretions, blood and surgical debris.
- Set consists of a detachable yankaur suction handle with **in-built ON/OFF control valve**.
- **2.5 mtr long ribbed suction tube** that is provided with flexible connector at both ends to enable connection to controlled suctioning apparatus.
- Enables **easy suction control**.
- Facilitates the caregiver to perform the cleaning procedure more comfortably.
- Enables **quick and effective removal of secretions**.
- Sterile, individually packed in peelable ribbon pack.
- Box of 10/ Master Box of 80.

SPECIFICATIONS	
Tube O.D	Tube Length
9 mm	250 cm

ELECTRAA/ GROUNDING PAD ELECTRO-SURGICAL PENCIL

Electraa™ GS-6038

- Electrosurgical pencil with 3.1 mtr cable with a tip cleansing pad.
- Ergonomically designed surface for comfort gripping that reduces any slipping when used in wet conditions.
- Unique combination of 'Cut' and 'Coag' mode facilitates controlled dissection with imposed hemostasis and also offers least tissue drag.
- Individually packed in peelable pack.
- Sterile, ready for use.
- Box of 10/ Master Box of 100.

Grounding Pad™ GS-6040

- Electrosurgical pad intended to safely return the electrical current from the patient back to the generator through a cable for completing the circuit during surgery.
- Adhere to the patient's skin away from surgical site.
- Necessary for monopolar electro surgery function.
- Consists of metal plate along with a adhesive base for sticking on the patient's skin.
- Pad should be placed so that the entire surface is in uniform contact with the pad site.
- Place the pad as close to the surgical site as possible.
- Box of 50/ Master Box of 200.

Grounding Pad™ Without Wire GS-6044

- Electrosurgical pad without wire.
- Box of 10/ Master Box of 50.
- All other features are as that of Grounding Pad.

SPECIAL FEATURES

- ★ 3.1 mtr cable
- ★ 'Cut' and 'Coag' dual mode
- ★ Electrosurgical pencil with tip cleansing pad

ASEPTO PUMP BULB IRRIGATION SYRINGE

Asepto Pump® GS-6008

- Bulb irrigation syringe.
- Syringe barrel manufactured from PP and adjoining bulb from TPE.
- Indicated for varied applications on patients like wound cleansing, urinary bladder irrigation, general medical or surgical irrigation, suction applications and feeding or aspiration.
- Syringe consists of catheter mount centric nozzle which is compatible to catheter connectors.
- Tapered tip facilitates easy, safe connection to any catheter or gastric tube.
- Finger flanges on the syringe help in firm grip and facilitate controlled and precise pumping during the procedure.
- Flanges also prevent accidental roll-over of the syringe.
- Soft transparent bulb facilitates easy pumping and suction.
- Sterile, individually packed in a peelable pouch.
- Box of 10/ Master Box of 100.

SPECIFICATIONS

Component	Capacity
Syringe Barrel	60 ml
Syringe Bulb	80 ml

cardiac care

Branch of medicine concerned with the surgical management and/or treatment of the diseases affecting organs inside the thorax. A cardiothoracic surgeon is qualified to operate on the heart, areas of the chest and in some cases, the lungs. The range of cardiothoracic care products involve specialised intercoastal drainage catheters, thoracic trocar catheters and under water seal drainage systems.

FLEXO CATH THORACIC DRAINAGE CATHETER

Flexo Cath® Straight GS-5034

- Thoracic drainage catheter, manufactured with extra soft material which is gentle to the body tissue.
- Proximal end fitted with specially designed tapered tongue which provides excellent forceps grip and facilitates atraumatic insertion.
- Catheter is marked at every 2 cm from the last eye to ascertain the depth of placement in the pleural cavity.
- Sterile, double packed in peelable pouch pack.
- Box of 20/ Master Box of 400.

Flexo Cath® Angled GS-5034A

- Specially designed right angled catheter for thoracic drainage from the deeper sites of the pleural cavity.
- Box of 10/ Master Box of 100.
- All other features are as that of Flexo Cath Straight.

SPECIFICATIONS

SILICONE FLEXO CATH SILICONE THORACIC DRAINAGE CATHETER

Silicone Flexo Cath® GS-5109

- Specially designed 100% silicone material thoracic drainage catheter.
- Completely non-reactive, inert, extra soft, smooth catheter ideal for inter-coastal drainage.
- Extremely gentle to the body tissues.
- Bio-compatible silicone catheter ensures high patient safety and comfort.
- Double packed in peelable pouch pack.
- Sterile, ready for use.
- Box of 5.

- ★ Bio-compatible ★ Soft on the tissues

ROMO SEAL UNDER WATER SEAL DRAINAGE SYSTEM

Romo Seal® GS-5020/ 5031/ 5032

- Under water seal drainage system.
- Specially designed drainage bottle suitable for pleural drainage in conjunction with intercostal drainage catheters.
- Double chamber and single chamber compact unit suitable for all cardiac and thoracic procedures.
- Range suitable for management of major, moderate and minor drainages.
- Easy to read markings help note the drainage volume.
- Clearly marked initial level ensures effective under water seal.
- Write on facility on the side of scale helps in monitoring the collected drained volume precisely.
- Suction port is provided for connection with suction unit.
- Kink resistant large bore tubing facilitates unrestricted flow.
- Metallic hangers for easy attachment to patient's bedside.
- Sterile, individually packed in a box.
- Box of 1/ Master Box of 10.

SPECIFICATIONS

Size	Capacity
Adult : GS-5020	2000 ml
Midi : GS-5031	1200 ml
Kid : GS-5032	500 ml

ROMO SEAL PRO UNDER WATER SEAL BOTTLE WITH VALVE

Romo Seal® Pro GS-5020P

- Design patented, excess negative pressure control mechanism and positive pressure control valve, under water seal drainage system.
- Safeguards against damage to patient's vital organs.
- Equipped with a "pressure control valve" to ensure controlled, safe drainage.
- The valve limits the maximum negative pressure to -50cm H₂O and releases the excess pressure if applied erroneously.
- The mechanism also controls the positive pressure if generated into the system anytime.
- Easy to read graduations on the bottle help note the drainage volume.
- Clearly marked initial level ensures effective under water seal.
- Write on facility on the side helps to monitor the drainage volume precisely.
- Suction port is provided for connection with suction unit.
- Metallic hanger for easy attachment to patient's bedside.
- Sterile ; Box of 1/ Master Box of 10.

SPECIFICATIONS

Max. -ve pressure	Capacity
-50 cm H ₂ O	2000 ml

SPECIAL FEATURES

- ★ Patented system ★ Allows optimal drainage
- ★ With excess negative/ positive pressure control valve

RESPIROMETER RESPIRATORY EXERCISER

Respirometer® SH-6082

- Breathing exerciser.
- Innovative system to exercise respiration through inspiration.
- Specially designed with 3 stage chambers to provide for efficient exercise to patient on a step up basis.
- Device comprises of base plate with central part containing volume designated three chambers with a colored sphere.
- Encourages deep and prolonged inspiration.
- Three spheres rise proportionately to the inspiration exerted by the user.
- Innovative design, can be dismantled into parts for cleaning and disinfection.
- Box of 1/ Master Box of 50.

UNIT CONSISTS OF :

- Transparent main body comprising of three volume chambers
- Base plate
- Spheres of Red, Yellow and Blue colour
- Connecting tube
- Patented mouth piece with in-built filter

SPECIFICATIONS

Chamber Sphere	Volume
Red	600 cc/sec
Yellow	900 cc/sec
Blue	1200 cc/sec

BREAZER VOLUMETRIC RESPIRATORY EXERCISER

Breazer™ SH-6083

- Volumetric Respiratory Exerciser.
- Specially designed to stimulate the deep inspiration while allowing with visual feedback to the patient.
- Assist patient requiring deep breathing exercises to perform.
- Allows view progress towards improving inspiratory volume.
- Encourages and enhances deep and prolonged inspiration and restores natural breathing rhythm.
- Provides measurement of air flow and air volume of the breathing process.
- Patented low resistance mouth piece with inbuilt filter.
- Goal indicator to indicate achieved result.
- Made of anti-shock material with built in handle.
- Latex-free, individually packed in a box.
- Box of 1/ Master Box of 20.

UNIT CONSISTS OF :

- Transparent main body comprising of two chambers
- Connecting Tube
- Mouthpiece with inbuilt filter

SPECIFICATIONS

Product	Vol. Measurement
Breazer 2500	Upto 2500 ml
Breazer 5000	Upto 5000 ml

TROCAR CATHETER THORACIC CATHETER WITH TROCAR

Trocar Catheter® GS-5030

- Designed for quick non-operative pleural and chest drainage.
- Specialised catheter is provided with trocar for easy penetration, placement and handling.
- Flat handle facilitates easy maneuverability.
- Large smooth drainage eyes for efficient drainage.
- Markings provided at 5, 10, 15 and 20 cm from the distal tip to help ascertain the depth of penetration.
- Proximal end is fitted with an universal tapered connector for easy connection to the drainage bottle.
- Sterile, individually double packed in a peelable pouch.
- Box of 10/ Master Box of 100.

SPECIFICATIONS

Catheter Size	Catheter Length
12 FG	160 mm
16 FG	190 mm
20 FG	350 mm
24 FG	350 mm
28 FG	350 mm
32 FG	350 mm

MISTAIR MIST BLOWER

Mistair® GS-6022

- Surgical blower humidifier intended for use during cardiac and other fine surgeries.
- Specially designed for improving the visibility at anastomotic or other fine surgical sites.
- It creates a consistent and predictable blood clearing mist.
- An irrigation mist gently clears blood from the site, improving visualization without drying or desiccating delicate tissue.
- Design of the device is such that it enables easy maneuverability and convenient handling.
- Consists of an extra soft tip, preceded by a shaft and a soft textured, ergonomic handle followed by a flexible connector provided with a dual lumen tubing that entails passage of normal saline at gentle air pressure.
- Combination of fluid and gentle air forms a fine humidifier spray, enabling easy visibility at the anastomosis sites.
- Sterile, individually packed in a box.
- Box of 10/ Master Box of 60.

SPECIFICATIONS

Handle Length	Hydrophobic Filter
160 mm	0.2 μ

gastro care

Branch of medicine concerned with the human digestive system and its disorders. Diseases affecting the gastrointestinal tract, which include all the organs starting from the mouth to anus, along the alimentary canal, are the focus areas of this specialty. Our gastroenterology range of products comprises of nasogastric tube, infant feeding tube, nasojejunal tube and specialised feeding bag.

ROMOLENE NASOGASTRIC FEEDING TUBE

Romolene® GS-4032

- Nasogastric tube/ Ryle's tube.
- The tube is marked at 50, 60 and 70 cm from the tip for accurate placement.
- Designed for introduction of nutrition and aspiration of gastric contents.
- Made up of non-toxic, non-irritant and kink resistant medical grade PVC.
- Super smooth, low friction, frozen surface facilitates atraumatic intubation.
- Four lateral eyes are provided for efficient aspiration and administration.
- Smooth outer surface also ensures to reduce chances of tissue irritation.
- Distal end is coned with radio opaque material for easy intubation.
- Patented soft dual port connector at the proximal end to fit easily with the syringe or feeding bag.
- Radio-opaque line for X-ray visualization.
- Colour coded for instant size identification.
- Sterile, Individually packed in peelable soft blister pack.
- Box of 50/ Master Box of 600.

SPECIFICATIONS

Size	Length
8 FG	105 cm
10 FG	105 cm
12 FG	105 cm
14 FG	105 cm
16 FG	105 cm
18 FG	105 cm
20 FG	105 cm

FEEDY INFANT FEEDING TUBE

Feedy® GS-4038

- Infant feeding tube with graduation.
- The tube features low friction, super smooth frozen surface ensuring non-traumatic intubation.
- The tube is marked at every cm starting from tip at 5cm to 40cm to enable accurate placement.
- Distal end of the tube is coned for smooth intubation and equipped with two lateral eyes for efficient drainage and administration.
- Proximal end is provided with female luer mount for easy connection to feeding funnel or syringe.
- Radio-opaque line facilitates accurate tube placement.
- Color coded for immediate size identification.
- Sterile, straight packed in peelable soft blister pack.
- Box of 100/ Master Box of 2000.

SPECIFICATIONS

10 FG	52 cm

GASTROLENE PUR POLYURETHANE FEEDING TUBE

Gastrolene™ PUR GS-4024

- Polyurethane feeding tube.
- Tube is completely inert and non-reactive to gastric juices.
- Suitable for long term, extended usage of up to 4 weeks.
- Transparent tube for clear view to continuously monitor the contents.
- Soft rounded distal end with solid radio-opaque material sealed into the tube, to assist the passage of the tube during intubation and visualization of the tip on X-ray.
- Four lateral eyes for efficient enteral feeding and aspiration.
- Provided with full length yellow radio-opaque line for checking the tube placement and X-ray visualization.
- The tube is marked at 50,60 and 70 cm from the tip for accurate placement.
- Proximal end provided with dual port mount connector for safe connection with catheter mount or luer mount syringe.
- Color coded for immediate size identification.
- Sterile, individually packed in a peelable pouch.
- Box of 10/ Master Box of 100.

SPECIFICATIONS

Size	Length
12	105 cm
14	105 cm
16	105 cm

GASTROLENE PLUS ENTERAL FEEDING TUBE

Gastrolene™ Plus GS-4030

- Polyurethane enteral feeding tube.
- Tube is completely inert and non-reactive to gastric juices.
- Ideal for medium to long term feeding of upto 4 weeks.
- Equipped with metallic stylet for easy insertion and to prevent kinking of the tube while intubating.
- The tube is marked at different intervals of 20,40,60,80 and 100 cm from the tip along the tube length for accurate placement.
- Equipped with full length yellow radio-opaque line for checking the tube placement and X-ray visualization.
- Proximal end provided with dual port mount connector for safe connection with feeding bag or luer port of the syringe.
- Distal end provided with two lateral eyes for efficient drainage.
- Color coded for instant size identification.
- Sterile ; Box of 10/ Master Box of 100.

SPECIFICATIONS

Size	Colour Code
12 FG	130 cm
14 FG	130 cm
16 FG	130 cm

SPECIAL FEATURES

- ★ Nasojejunal feeding tube
- ★ 100% Polyurethane
- ★ Stylet for easy insertion
- ★ Ideal for long-term use

FEE BAG FEEDING BAG

Fee Bag™ GS-4042

- Feeding bag is an enteral feeding bag intended for gastro-intestinal feeding.
- Specially designed 1.2 litre capacity bag.
- An ice pouch is provided on the rear side of the bag for preserving the food for longer intervals of time.
- Transfer set is directly connected to the bag.
- Roller controller provided on the transfer set facilitates control on the administered feed.
- The feeding bag is graduated to determine precisely the quantity of the administered feed.
- Feeding bag is provided with a closure cap and also a hanger for safe hanging during and after use.
- Sterile, individually packed in peelable pouch.
- Box of 5/ Master Box of 50.

SPECIFICATIONS

Product Code	Capacity
GS-4042	1200 ml

COLO BAG COLOSTOMY BAG

Colo Bag® GS-4020

- Closed stoma bag for daily care.
- Specially designed for closed colostomy management.
- Manufactured from extra soft medical grade PVC.
- Flange with hypo-allergenic adhesive is gentle on the skin.
- The hole opening can be increased or reshaped as per the requirement.
- Non-sterile, individually packed.
- Box of 100/ Master Box of 1000.

Colostomy Kit GS-4012

- The Colostomy Kit gives perfect relief and comfort during prolonged use.
- It is light weight, flexible and the belting arrangement fits the body well.
- Soft padding is provided between the sleeve and the main body for ensuring better comfort.
- 100 spare bags provided.
- Individually packed in a box/ Master Box of 50.

SPECIFICATIONS

Size	Hole Diameter
Colo Bag 25 x 14 cm	30 mm
Colostomy Kit Adult	50 mm
Paediatric	35 mm

miscellaneous

A miscellaneous range of new, modified or technologically improved products. The unique features and design specification of the products in this category make them well suited for variety of applications. I.V cannula fixators featured in this segment ensure reliable fixation of the cannula and provides unmatched quality experience to the healthcare professionals.

INTRA SHIELD TRANSPARENT I.V DRESSING

Intra Shield® GS-3045

- Transparent PU drape which provides visibility of skin around cannula.
- High permeability of the PU film prevents moisture build up, responsible for bacterial growth and thereby reduces the risk of infection.
- Adequate adhesion to the skin due to hypoallergenic adhesive quality.
- Flexible and gentle on the skin.
- The film ensures excellent cannula stability.
- Keeps the cannula site secure, clean, tidy and prevents any infection.
- Convenient and timely visual inspection because of transparent film.
- Provided with a patient identification sticker.
- Easy to peel off after use.
- Sterile, individually packed.
- Box of 100/ Master Box of 2000.

SPECIFICATIONS

Product Code	Size
GS-3045	6 x 7 cm

SPECIAL FEATURES

- ★ Transparent I.V dressing
- ★ Hypoallergenic adhesive
- ★ Flexible and gentle
- ★ Excellent cannula stability

VEIN GUARD MICROPOROUS I.V DRESSING

Vein Guard® GS-3204

- Drape with pad and strip for I.V cannula fixation.
- Clean, white, soft non-woven fabric.
- Sterile drape along with a centrally positioned sterile absorbent pad.
- Ergonomically shaped to cover the cannula site.
- Keeps the cannula site secure, clean, tidy and prevents any infection.
- Adequate adhesion to the skin due to hypoallergenic adhesive quality.
- Easy to peel free from skin after use.
- Sterile, individually packed.
- Box of 100/ Master Box of 2000.

SPECIFICATIONS

Product Code	Size
GS-3204	6 x 8 cm

SPECIAL FEATURES

- ★ Provided with pad and strip
- ★ Ergonomically shaped
- ★ Centrally positioned sterile absorbent pad

SOFLENE I.V DRESSING

Soflene™ GS-3202

- I.V. cannula fixator.
- Skin coloured, **soft breathable fabric**.
- **Flexible and gentle** to the skin.
- Ergonomically shaped.
- Keeps the cannula site secure, clean, tidy and prevents any infection.
- Adequate adhesion to the skin due to **hypoallergenic adhesive** quality.
- Easy to peel-free from skin after use.
- Sterile, individually packed.
- Box of 100/ Master Box of 2000.

SPECIFICATIONS

Product Code	Size
GS-3202	5 x 6 cm

SPECIAL FEATURES

- ★ Fixator with soft fabric ★ Highly breathable
- ★ Easy to peel-free ★ Hypoallergenic adhesive quality

KLIK CLAMP UMBILICAL CORD CLAMP

Klik Clamp® SH-5084

- Suitable for clamping the umbilical cord of newly born baby immediately after their birth.
- Provided with **dual security lock** with distinct "click" sound to indicate the correct locking of the umbilical cord.
- **Finger grip** ensures safe and convenient handling of the clamp, particularly when the gloves are wet.
- Provided with **grooves all along the length** to prevent the slipping of umbilical cord and retain it in the same position.
- Manufactured from non-toxic medical grade polymer.
- Sterile, individually packed in blister pack.
- Box of 100/ Master box of 4000.

SPECIAL FEATURES

- ★ Dual security lock ★ Distinct "click" sound
- ★ Grooves all along the length ensuring secure fitment

KENPORE PLUS NON-WOVEN MICROPOROUS SURGICAL TAPE

Kenpore® Plus SH-6301 P

- Non-woven microporous surgical tape.
- Gentle to the skin, for multipurpose medical applications.
- High air permeability.
- Uniformly coated with hypoallergenic adhesive.
- Excellent adhesion to the skin due to superior quality of the Adhesive.
- Thin, soft and flexible for improved patient comfort.
- Tape is easy to tear from roll and apply.
- Easy to peel off from the skin without causing any discomfort.

SPECIFICATIONS

Length	Size in mm
5 mtr	12.5, 25, 50, 75
9 mtr	12.5, 25, 50, 75

KENPORE PRO NON-WOVEN MICROPOROUS SURGICAL TAPE

Kenpore® Pro SH-6314

- Non-woven microporous surgical tape.
- Skin colored tape is gentle to the skin.
- Provided with unique wavy pattern throughout the surface which allows high air permeability and ensures painless removal.
- Uniformly coated with hypoallergenic adhesive.
- Excellent adhesion to the skin due to superior quality of the glue.
- Tape is thin, soft and flexible for improved patient comfort.
- Tape is easy to tear from roll and apply.
- Easy to peel off from the skin without causing any discomfort.

SPECIFICATIONS

Length	Size in mm
7.5 mtr	12.5, 25, 50, 75

SPECIAL FEATURES

- ★ Skin coloured surgical tape
- ★ High air permeability
- ★ Unique wavy gum pattern
- ★ Suitable for delicate skin

SPECICAN SAMPLE CONTAINER

Specican® SH-1074

- Specialized specimen container for collecting biological specimens such as urine, sputum and tissue
- Made up of clear virgin polypropylene for better vision.
- Integral attached cap for ease of use.
- Unique cap ensures leak-proof seal.
- Sterile and individually packed.
- Box of 50/ Master Box of 500.

SPECIFICATIONS

Product Code	Capacity
SH-1074 SC70	70 ml
SH-1074 SC30	30 ml

HIV PACK HIV KIT

HIV Pack SH-6079

- Specialized HIV kit consist of sterile sets for doctor, medical staff and patient.
- Disposable operation kit which is sterilized and used by the surgeons before the operating procedure.
- Manufactured using supreme quality raw material.
- Designed in accordance with strict medical guidelines.
- Reliable and safe to use.
- Available in Small and Large sizes.
- Box of 1 set/ Master Box of 2 sets.

DOCTOR KIT CONSISTS OF :

- O.T Gown, Cap, Mask, Shoe Cover, Arm Guard, Surgical Gloves, Protective Glasses

PATIENT KIT CONSISTS OF :

- Cut Sheet, Slit Sheet, Draw Sheet, Trolley Cover, O.T Towel, Mayo Stand Cover, Patient Cover Sheet, Suture Bag, Disposal Bag
