## FEEDING

### Anti-colic nipples and feeding bottles for safe feeding.

Our bottles are manufactured using Japanese technology and abide to the highest quality standards. The bottles come with anti-colic nipples which are BPA free and made using German technology to keep colic at bay.

Note: Morisons Baby Dreams recommends exclusive breastfeeding for the first 6 months of your baby's life. A breast milk diet protects your baby from infections and diseases and has many other health benefits.

## Infant Milk Substitute Act - JL Morison's Adherence

We, J.L. Morison (India) Ltd. ("JLM"), encourage breastfeeding and believe mother's milk to be the best possible food for an infant's healthy growth and development. We support The Infant Milk Substitutes, Feeding Bottles and Infant Foods (Regulation of Production, Supply and Distribution) Act, 1992 as Amended in 2003 (IMS Act).

- 
- We do not advertise or promote feeding bottles and nipples.
  - BREASTFEEDING IS BEST FOR YOUR BABY is printed on each feeding bottle pack.
  - We do not provide discount on our feeding bottles.
  - We do not permit staff whose responsibilities include the supply and distribution of feeding bottles and nipples to make direct contact with mothers, except in response to consumer complaints.
  - We do not promote our feeding bottles to doctors or healthcare professionals.
  - We do not distribute free samples of feeding bottles and nipples to mothers, and we do not donate feeding bottles and nipples to healthcare facilities for use by infants.
  - We do not allow educational material relating to the use of feeding bottles and nipples to be displayed publicly in hospitals and clinics.
  - We do not give financial incentives to health workers for the purpose of promoting feeding bottles and nipples.
  - We do not give incentives to our staff based on sales of feeding bottles and nipples.
  - We take strict disciplinary measures against any JLM personnel who deliberately violate this policy.

## Teethers & Toys - let the fun begin.

### Teethers

Help your baby bite away the pain they experience during teething with our food grade plastic teethers. Teething is a difficult phase in a baby's life. When their teeth start to push through their gums they need something to chew on. Chomping on our teethers will help reduce their gum irritation.

### Toys

When babies play/interact with rattles and similar toys it enhances their motor skills, aids better hand-eye coordination and helps develop their sense of sight and sound. Our rattles and toys are made from food grade plastic and are fun as well as safe for babies.
